Tim –

This request has been completed. The folder is accessible to all requested group members at L:\Priv\AnimasRiver and has a 300 GB hard quota.

Thank you,

Leigh Sandridge

Subject: Request for network storage

Please make this network storage request high priority as Lourdes Prieto indicates the storage is needed to fulfill a request from EPA Administrator McCarthy.

Please route this storage request (see attached) to ORD's ITI contractor for action.

Tim Rowan, [CISSP](#)

Subject: Request for network storage

Hi Tim, this is a request for network storage on the L:\Priv drive for a newly formed team that will be doing some modeling related to the recent mine gold spill in the Animas River.

Many thanks,

Lourdes
